Analyze with Confidence
New MXA Signal Analyzer from Keysight

Keysight MXA Signal Analyzer

Quickly Adapt to Evolving Test Requirements of Wireless Devices

Built for wireless device test, the MXA signal analyzer helps you characterize signals from virtually any wireless device quickly and confidently with up-to-date parametric or RF functional tests. The intuitive multi-touch interface minimizes measurement complexity, even when working with cutting-edge devices.

TRS-RenTelco is proud to be certified as a Keysight Technologies Premier Rental Partner.

This partnership combines Keysight's expertise in technology with TRS-RenTelco's over 40 years experience in the test equipment rental industry.

As a certified Premier Rental Partner, TRS-RenTelco not only stocks a large inventory of frequently requested Keysight equipment, but also receives priority delivery of Keysight's newest product technology.

TRS-RenTelco offers short and long term full-service leases, rentals, rentals with purchase option, and sales of pre-owned equipment.

TEST EQUIPMENT AS-A-SERVICE

We also offer trade-in programs to keep your inventory up-to-date with the latest technology.

With thousands of models available, most orders are shipped by TRS-RenTelco for delivery the next business day.

TRS-RenTelco provides you with the latest technology, when you want it, for as long as you need it, at an excellent value!

Equipment now. Service beyond.

RENT A KEYSIGHT MXA FROM TRS-RENTELCO

IN STOCK AND READY TO SHIP

Keysight MXA Signal Analyzer

Built for wireless device test, the MXA signal analyzer helps you characterize signals from virtually any wireless device quickly and confidently with up-to-date parametric or RF functional tests. The intuitive multi-touch interface minimizes measurement complexity, even when working with cutting-edge devices.

• See more with a wide frequency range of 10 Hz to 50 GHz with up to 160 MHz analysis bandwidth

• Shorten test times with hardware-accelerated power measurements, rapid display updates, rapid marker peak searches, and fast sweeps

• Get complete signal characterization by capturing longer I/Q samples

• Accurately analyze complex signals with EVM as low as 0.3 percent (–50 dB)

• Simplify testing with one-button measurements using PathWave X-Series measurement applications

• Capture elusive or transient signals with full-band real-time spectrum analysis

TRS-RenTelco Premier Rental Program Benefits

Availability: access to a large inventory of Keysight equipment – when you need it

Response: quick and thorough support to address your pre-sales and post-sales technical questions

Execution: you can depend on us to get it done no matter what
