

# SeeHawk® Collect

## NETWORK TESTING SOFTWARE

### Intuitive Windows®-Based Wireless Network Testing and Reporting Software

Gain effortless visualizations of your cellular, critical communications, and WiFi network coverage and quality with this data collection software for PCTEL® scanning receivers. Its rich feature set powers your drive tests and walk tests by enabling swift analysis, fast recognition, and easy data exporting for quick resolution of network issues.

# SeeHawk Collect

## PRODUCT FEATURES

- Access advanced PCTEL® scanning receiver features such as 5G NR, Layer 3 messages, and LTE MIMO measurements
- Simultaneous data collection across multiple bands and technologies, including cellular, WiFi, public safety, and private radio
- Automated reporting and integration with post-processing tools for easy data analysis
- Simple file-based data logging and export, including .csv
- OpenStreetMaps® support

HBflex™ and IBflex® scanning receivers connect via USB or ethernet connectivity. MXflex® and other scanners connect via USB.

## APPLICATIONS

- Outdoor drive testing
- Indoor/outdoor walk testing
- Troubleshooting and optimization
- 5G network deployment
- Benchmarking
- Model tuning and design

## Solving Complex Wireless Challenges

PCTEL is a leading global provider of wireless technology, including purpose-built antenna systems, Industrial IoT devices, and test and measurement solutions. Trusted by our customers for over 25 years, we solve complex wireless challenges to help organizations stay connected, transform, and grow.
